PRIMEFLEX for Microsoft Azure Stack

PRIMEFLEX for Microsoft Azure Stack is an Integrated System that brings the agility and fast paced innovation of cloud computing to on-premises environments

PRIMEFLEX for Microsoft Azure Stack

An integrated system that brings the agility and fast-paced innovation of cloud computing to on-premises environments. It leverages high performance, energy-efficient FUJITSU PRIMERGY standard x86 servers, Fujitsu's Software Infrastructure Manager (ISM) with the Azure stack software and offers a consistent, integrated support experience that covers the full system lifecycle.

Need for speed

PRIMEFLEX for Microsoft Azure Stack addresses latency and connectivity requirements by processing data locally in Azure Stack and then aggregating it in Azure for further analytics, with common application logic across both.

Meet regulatory or policy requirements

Can develop and deploy applications in cloud, with full flexibility to deploy on-premises to meet regulatory or policy requirements, with no additional code changes. Illustrative application examples include global audit, financial reporting, foreign exchange trading, online gaming, and expense reporting.

Get fast time to value

Mitigate risk with turnkey factory integrated delivery with on-site installation including unpacking, system startup and Azure Stack integration. The customers will get a ready-to-run solution at their site.

Buying monetary commitments from Fujitsu

Reliable management of existing Enterprise Agreements, Software Assurance for OEM licenses. License consulting across business models – Leverage existing plans for new requirements, optimize to suit every individual requirement.

Enjoy high application performance

Get maximum performance with Fujitsu standard x86-servers delivering the most powerful virtualization platform leading in the virtualization benchmark categories.

Grow as you go

Scale your environment starting from 4 nodes to 12 nodes with identical configurations. To scale out, simply add more system nodes.

World-class support

Get 24/7 support for the complete hardware and software stack with a single point of contact.

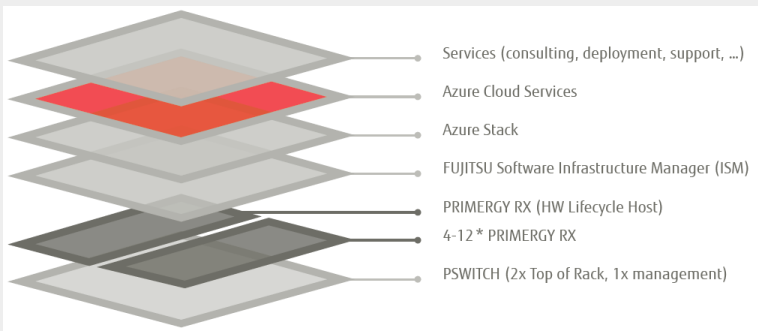

Fujitsu's Managed, Hybrid & Hosting services

Azure Managed services for organizations with limited resources, skills and capabilities to manage their complex infrastructure. Hybrid IT services to identify the optimum blend of sourcing options and managing the Azure and Azure Stack environments. Hosting services for fast and reliable connection to Azure Cloud.
