PRIMEFLEX for Microsoft Azure Stack
An integrated system that brings the agility and fast-paced innovation of cloud computing to on-premises environments. It leverages high performance, energy-efficient FUJITSU PRIMERGY standard x86 servers, Fujitsu’s Software Infrastructure Manager (ISM) with the Azure stack software and offers a consistent, integrated support experience that covers the full system lifecycle.

Need for speed
PRIMEFLEX for Microsoft Azure Stack addresses latency and connectivity requirements by processing data locally in Azure Stack and then aggregating it in Azure for further analytics, with common application logic across both.

Meet regulatory or policy requirements
Can develop and deploy applications in cloud, with full flexibility to deploy on-premises to meet regulatory or policy requirements, with no additional code changes. Illustrative application examples include global audit, financial reporting, foreign exchange trading, online gaming, and expense reporting.

Get fast time to value
Mitigate risk with turnkey factory integrated delivery with on-site installation including unpacking, system startup and Azure Stack integration. The customers will get a ready-to-run solution at their site.

Buying monetary commitments from Fujitsu
Reliable management of existing Enterprise Agreements, Software Assurance for OEM licenses. License consulting across business models – Leverage existing plans for new requirements, optimize to suit every individual requirement.

Enjoy high application performance
Get maximum performance with Fujitsu standard x86-servers delivering the most powerful virtualization platform leading in the virtualization benchmark categories.

Grow as you go
Scale your environment starting from 4 nodes to 12 nodes with identical configurations. To scale out, simply add more system nodes.

World-class support
Get 24/7 support for the complete hardware and software stack with a single point of contact.

Fujitsu’s Managed, Hybrid & Hosting services
Azure Managed services for organizations with limited resources, skills and capabilities to manage their complex infrastructure. Hybrid IT services to identify the optimum blend of sourcing options and managing the Azure and Azure Stack environments. Hosting services for fast and reliable connection to Azure Cloud.
Benefits

PRIMEFLEX for Microsoft Azure Stack Solution Stack
Additional options with PRIMEFLEX for Microsoft Azure Stack

Software licenses

- Reliable management of existing Enterprise Agreements.
- License consulting across business models – Leverage existing plans for new requirements, optimize to suite every individual requirement.

Backup of on-premises user data

ETERNUS CS appliances: Options for disk backup with deduplication, file archiving and archive automation.

Azure compatible middleware

- FUJITSU Cloud Service PICCO: Service offering that helps control and govern the usage and costs of services and resources in a multi-cloud environment.
- FUJITSU Software UForge AppCenter: Tool for making existing applications Azure or multi-cloud ready.

Azure Managed, Hybrid and Hosting services

- Azure Managed services for organizations with limited resources, skills and capabilities to manage their complex infrastructure.
- Hybrid IT services to identify the optimum blend of sourcing options and managing the Azure and Azure Stack environments.
- Hosting services for fast and reliable connection to Azure Cloud.

### CPU Options
- 2x Intel Xeon Silver 4108 8C 1.80 GHz
- 2x Intel Xeon Silver 4110 8C 2.10 GHz
- 2x Intel Xeon Silver 4114 10C 2.20 GHz
- 2x Intel Xeon Silver 4116 12C 2.10 GHz
- 2x Intel Xeon Gold 5115 10C 2.40 GHz
- 2x Intel Xeon Gold 5118 12C 2.30 GHz
- 2x Intel Xeon Gold 5120 14C 2.20 GHz
- 2x Intel Xeon Gold 6130 16C 2.10 GHz
- 2x Intel Xeon Gold 6140 18C 2.30 GHz
- 2x Intel Xeon Gold 6138 20C 2.00 GHz
- 2x Intel Xeon Gold 6152 22C 2.10 GHz
- 2x Intel Xeon Gold 6126 12C 2.60 GHz
- 2x Intel Xeon Gold 6132 14C 2.60 GHz
- 2x Intel Xeon Silver 4111T 10C 2.20 GHz
- 2x Intel Xeon Gold 5119T 10C 1.90 GHz

### Memory Options
- 16-24x 16GB (1x16GB) 1Rx4 DDR4-2666 R ECC
- 8-24x 32GB (1x32GB) 2Rx4 DDR4-2666 R ECC
- 4-24x 64GB (1x64GB) 4Rx4 DDR4-2666 3DS ECC
- 2-24x 128GB (1x128GB) 8Rx4 DDR4-2666 3DS ECC

### Storage Options
- **Configuration 1**
  - 4x SSD SAS 12G 400GB Mixed-Use 3.5” H-P EP
  - 8x HD SATA 6G 2TB 7.2K HOT PL 3.5” BC
- **Configuration 2**
  - 3x SSD SAS 12G 1.6TB Mixed-Use 3.5” H-P EP
  - 9x HD SATA 6G 4TB 7.2K HOT PL 3.5” BC
- **Configuration 3**
  - 4x SSD SAS 12G 1.6TB Mixed-Use 3.5” H-P EP
  - 8x HD SATA 12G 8TB 7.2K 512e HOT PL 3.5” BC

### Boot device
- 2x HD SAS 12G 600GB 10K 512n HOT PL 2.5” EP

### RAID Controller
- 1x PRAID EP400i

### LAN Controller
- 1x PLAN EP MCX4-LX 25Gb 2p SFP28 LP

### SAS Controller
- 1x PSAS CP400i

### Security Chip
- 1x TPM 2.0 Module

### Power Supplies options
- 2x Modular PSU 800W platinum H-P
- 2x Modular PSU 800W titanium H-P
- 2x Modular PSU 1200W platinum H-P

Fujitsu products & solutions

**Products**

www.fujitsu.com/global/products/

Fujitsu offers a full portfolio of other computing products.

**Computing products**

- Storage systems: ETERNUS
- Server: PRIMERGY, PRIMEQUEST, Fujitsu SPARC M10, BS2000/OSD Mainframe
- Client Computing Devices: LIFEBOOK, STYLISTIC, ESPRIMO, FUTRO, CELSIUS
- Peripherals: Fujitsu Displays, Accessories
- Software
- Network

Product Support Services with different service levels agreements are recommended to safeguard each product and ensure smooth IT operation.

**Solutions**

http://www.fujitsu.com/global/solutions

The Fujitsu solutions combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships. Fujitsu's Solutions include parts of one or more activity groups (e.g., planning, implementation, support, management, and training services) and are designed to solve a specific business need. **Infrastructure Solutions** are customer offerings created by bringing Fujitsu's best products, services and technologies together with those from partners to deliver benefit to our customers' businesses. **Industry Solutions** are tailored to meet the needs of specific verticals. **Business and Technology Solutions** provide a variety of technologies developed to tackle specific business issues such as security and sustainability, across many verticals.

Fujitsu services

**Services**

www.fujitsu.com/global/services/

Several customizable Fujitsu Service offerings ensure that IT makes a real difference and delivers true business value. We do this by leveraging our extensive experience in managing large, complex, transformational IT programs to help clients in planning, delivering and operating IT services in a challenging and changing business environment.

**Application Services** support the development, integration, testing, deployment and on-going management of both custom developed and packaged applications. The services focus on delivering business and productivity improvements for organizations. **Business Services** respond to the challenge of planning, delivering and operating IT in a complex and changing IT environment. **Managed Infrastructure Services** enable customers to deliver the optimal IT environment to meet their needs – achieving high levels of IT service quality and performance for data center and end user environments.

Fujitsu green policy innovation

www.fujitsu.com/global/about/environment/

Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environment. Using our global know-how, we aim to resolve issues of environmental energy efficiency through IT. Please find further information at:
